Wayne County
COMMUNITY HEALTH CENTER

STD Program

Sexually transmitted diseases affect a number of individuals in the community. The Wayne County Community Health Center provides care and support for those suffering with such illnesses by providing screening and treatment efforts. The STD clinic is available on Thursdays and no appointment is needed.

Our STD clinic offers HIV testing and counseling, as well as Syphilis and Hepatitis B and C testing.

Tuberculosis Clinic

Although Tuberculosis does not pose the threat that it did many years ago, it remains an active disease in our nation and community. The Wayne County Community Health Center provides routine skin testing for possible Tuberculosis patients, as well as the provision of Tuberculosis medication.

The Tuberculosis clinic is open every Monday, Tuesday, and Friday. No Appointment Needed.

On-Site Lab Services

To ensure that medical services are offered as soon as possible, the Wayne County Community Health Center houses its very own CLIA Certified lab. Patients in need of lab services for diagnosis and treatment have the benefit of quicker results at our state-of-the-art, Federally Qualified Community Health Center.

Our VISION

Responding to our changing community through sustainable, technically expert and culturally competent health care services.

Our MISSION

Wayne County Community Health Care Center provides quality healthcare where caring meets the community through treatment, prevention and education.

Eric Coulter

CEO/Executive Director

Our VALUES

1. Respect others
2. Compassion in all situations
3. Pursuit of knowledge
4. Responsive customer care

Federally Qualified Health Center

The Wayne County Community Health Center is a

Federally Qualified Health Center that provides primary healthcare to local residents under the strictest of federal guidelines and standards.

Physicians and other healthcare professionals are on staff to provide cost-efficient, quality managed, exceptional care in an ambulatory setting. The Wayne County Community Health Center is staffed with two full-time healthcare providers, two part-time healthcare providers, a Physician Assistant, as well as a Nurse Practitioner who administer acute and chronic care for adults and routine check-ups and sick care for children.

Included in the Wayne County Community Health Center are a number of programs that administer services for a variety of health needs:

Adult Services

The Wayne County Community Health Center offers Acute and Chronic Care to all adult patients, as well as walk-in Blood Pressure and Weight checks to ensure that adults can potentially take advantage of a healthy life.

Gynecology and Obstetrical Care

Our seasoned staff provides caring, professional Gynecology services, including examination and treatment, for all women who are patients of the Wayne County Community Health Center.

Family Planning Services

Planning for a family can be an intimidating process, and the Wayne County Community Health Center is available to aid those in this process with a number of services. Included within those services include Physical examinations, patient education, and contraception methods including:

- IUD's
- Depo Provera
- Contraceptive Pills
- Contraceptive Patches and Condoms

Pregnancy Testing

Motherhood can be both precious and frightening at the same time. Our staff approaches potential mothers with the utmost care and respect to determine pregnancy outcomes. Pregnancy testing is offered Monday through Friday with no appointment needed.

Maternity Services

Healthy mothers may mean healthier babies. That's why the Wayne County Community Health Center offers Maternity services which include Prenatal and Postpartum care and education, which strives to offer the mother and her child the best chances available for a healthy life.

Pediatric Services

Healthy families include healthy children. To help ensure that our community's children achieve the healthy lifestyle that they need, we offer routine check-ups and sick care for all pediatric patients.

Immunization Program

To ensure the health and well-being of our community, the Wayne County Community Health Center leads the way by providing both Childhood and Adult immunizations to those in need, regardless of ability to pay.
